

FAMILY  VALUE

SEA  FOX

SEA  FOX

SEA  FOX

Boats That Bring Families Together.

HERITAGE.
CRAFTSMANSHIP.
VALUE!

Sea Fox boats are a reflection of craftsmanship techniques used as far back as the 1600s. Made by a family owned company whose own Charleston roots date back nearly half a century, Sea Fox offers a full line of fishing and pleasure boats for families who value their time together. Sea Fox value also translates into more outstanding standard features. An exceptional value built to last, Sea Fox is one of the few boat lines that comes with a ten-year limited hull warranty.

QUALITY & VALUE —
FROM OUR FAMILY TO YOURS.

When it comes to getting the most out of your family value, Sea Fox goes full throttle. These sleek, crafty foxes on the water are made with the finest materials on the market today — feature packed, priced affordably and powered perfectly for maximum performance. We realize this is a major investment in your recreation. Sea Fox has gone the extra nautical mile to make sure you get more for less.

Every single day Sea Fox and its employees work hard to deliver unmatched quality and value to the marketplace. We understand that all families and fishermen work hard themselves in order to enjoy quality time on the water away from it all. We provide the product that will take you there and give you and your family years of quality boating.

— FRED RENKEN, PRESIDENT

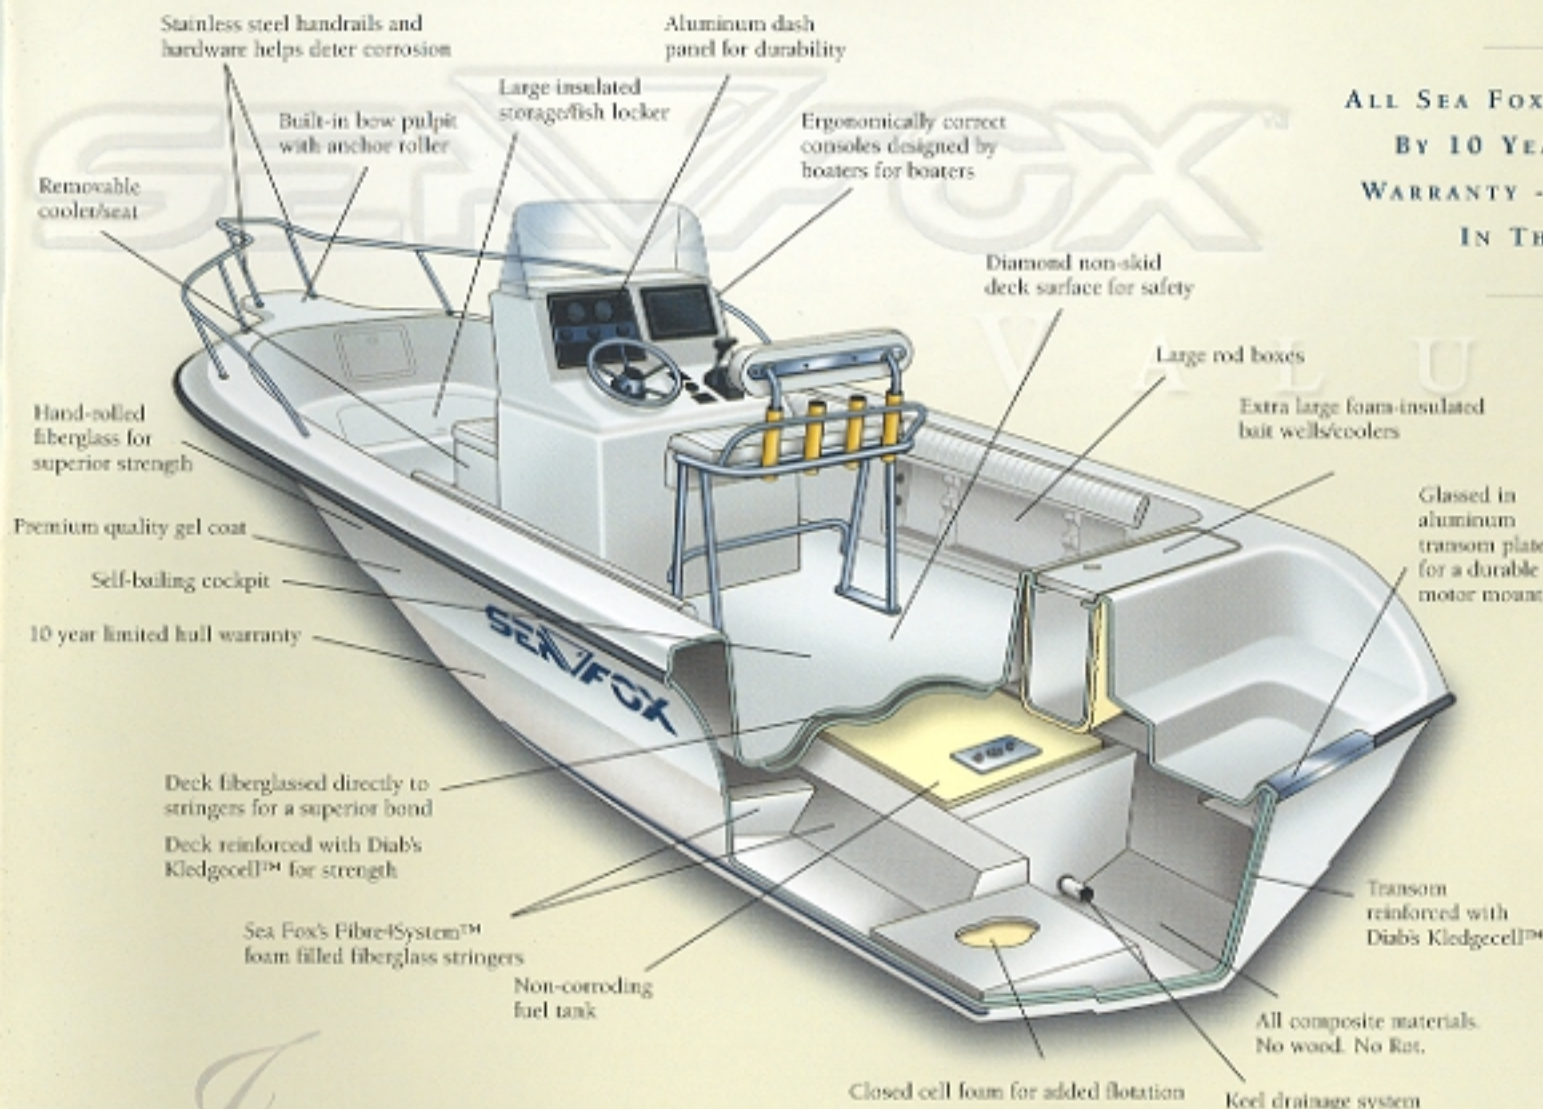

ALL SEA FOX BOATS ARE BACKED
BY 10 YEAR LIMITED HULL
WARRANTY - ONE OF THE BEST
IN THE INDUSTRY!

SEA FOX'S FIBRE4SYSTEM™

Exclusive "FibreFour" all-fiberglass stringer system is built into every Sea Fox, providing a wider, stronger stringer that will not rot! Besides a stronger platform, decks are fiberglassed to stringers resulting in a superior bond between hull, stringers and deck.

- Among the finest manufacturing materials available, Sea Fox boats are constructed using Klegecell™, a composite material lighter and more durable than wood. It will not rot!
- An aluminum plate is glassed into place providing a backing plate for motor mounts.
- Composite materials provide strength in floors, consoles and hatch lids. No wood...no rot!

I've had many great times in a boat.

As a child I can remember learning how to ski or fish. As a parent I have seen the wonder in my child's eyes as she has looked out over the water as we glide across the Charleston Harbor. These are wonderful memories I wish I could share with everyone and in a way, I can. Sea Fox is committed to building a quality boat at a price most families can afford. We want to make boating affordable for as many families as possible so that they can start making memories of their own. That is why everything we do at Sea Fox is geared to offering you and your family more for less.

— ED RENKEN, VICE PRESIDENT

Facts That Keep Sea Fox Out Front!

- FibreFour Stinger System - fiberglass stringers are wider than wooden ones and will not rot when exposed to water.
- Composite Transom With Aluminum Plate - eliminates transom from rotting! Kledgecell will not disintegrate when exposed to water like wood plus the aluminum plate within the transom provides extra engine mount strength.
- Hand Rolled Fiberglass means fewer air pockets plus a superior laminate.
- Self-Bailing Cockpits allows water to drain overboard.
- Diamond Non-Skid Deck Surfaces aids in safer deck surfaces.
- Stainless-Steel Hardware eliminates the worry of saltwater corrosion.
- Closed Cell Foam Floatation - foam injected into key areas of the hull and deck provide superior floatation and insulation.
- Family-Owned With Forty Two Years Experience - a proud heritage of experience that goes into each boat we build.
- One Of The Best Warranties In The Business - every Sea Fox is backed by our Ten Year Limited Hull Warranty!

Boats That Bring Families Together.
