SEA FOX. SMART MOVE.

Sea Fox follows the philosophy of "more for less" by building hand-crafted, quality boats that are durable, dependable and affordable.

In 1952 the Renken family began building boats in Charleston, South Carolina. Today the third generation of Renkens continues that tradition with Sea Fox boats. The Renkens learned the trade of boat building through hands-on experience and the 49 years of boat-building knowledge that has been passed down to them.

Sea Fox proves that choosing a quality boat with true craftsmanship and attention to detail can still be within a family's budget. Sea Fox boats are packed full of unique features and fishermen-friendly amenities for all types of anglers. They stand behind their boats with one of the best warranties in the business – a Limited Lifetime Hull Warranty.

Sea Fox's diverse designs and full line of choices allow you to select the boat that is just right for you, whether for fishing, cruising or enjoying your favorite water sport. You can choose from their center consoles, walk-arounds, bay boats, flats boats or dual consoles.

SEA FOX'S EXCLUSIVE FIBRE4SYSTEM™

The exclusive "Fibre4" all fiberglass stringer system is built into every Sea Fox boat, providing a wider, stronger stringer that will not rot in addition to a stronger platform. Decks are bonded to the broad stringer tops resulting in superior strength between hull, stringers and deck.

Sea Fox boats are constructed using an all composite core material that is lighter and more durable than wood. It will not rot!

An aluminum plate is glassed into the hull providing a backing for motor mounts.

Composite core materials provide strength in floors, consoles and hatch lids. No wood, no rot!

FACTS THAT KEEP SEA FOX OUT FRONT

Fibre4 Stringer System – fiberglass stringers are wider than wooden ones and will not rot when exposed to water.

A high-density foam-core hull will not deteriorate as wood does when exposed to water, plus the aluminum plate within the transom provides extra engine mounting strength.

Hand-rolled fiberglass means a superior laminate.

Self-bailing cockpits allow water to drain overboard.

Non-skid deck surfaces add in safer deck surfaces.

Stainless steel hardware eliminates the worry of saltwater corrosion.

Closed cell foam flotation – foam injected into key areas of the hull and deck provide superior flotation and insulation.

Family-owned with more than 49 years of experience – a proud heritage of experience that goes into each boat.

One of the best warranties in the business – every Sea Fox is backed by a Limited Lifetime Hull Warranty.

Sea Fox boats meet or exceed United States Coast Guard standards. Boat smart from the start, take a boating education course and get a vessel safety check for your boat. For information, call the United States Coast Guard Auxiliary at 800-368-5647 or at www.uscgaux.org or the United States Power Squadrons at 888-FOR-USPS or www.usps.org.

THE CERTIFIED ADVANTAGE

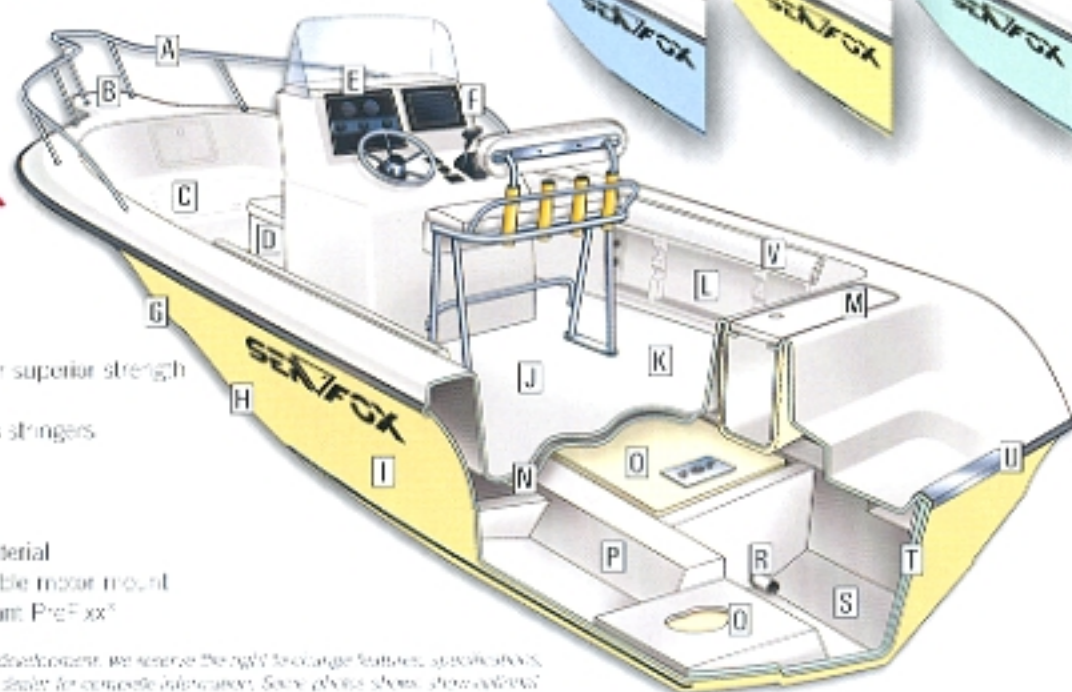

The NMMA Certified label on a Sea Fox boat lets you know it was built to meet and often exceed, strict quality and safety standards established by the United States Coast Guard and the American Boat and Yacht Council. These standards include 31 categories covering electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. As a result, United States Coast Guard statistics show NMMA Certified boats are safer than non-certified boats.

THE MAKINGS OF A SEA FOX

- A. Stainless steel hand rail & hardware help deter corrosion
- B. Built-in bow pulpit with anchor roller on 257 & 287 series boats
- C. Large insulated storage/fish locker
- D. Removable cooler/seats on many models
- E. Aluminum dash panel for durability
- F. Ergonomically correct consoles designed by boaters for boaters
- G. Hand-rolled fiberglass for superior strength
- H. Premium quality gel coat
- I. Limited Lifetime Hull Warranty
- J. Self-bailing cockpit
- K. Non-skid deck surface
- L. Large rod storage
- M. Large, foam-insulated bait well/coolers
- N. Deck bonded directly to broad stringer tops for superior strength
- O. Non-corroding fuel tank
- P. Sea Fox's Fibre4System™ foam-filled fiberglass stringers
- Q. Closed-cell foam for added flotation
- R. Keel drainage system
- S. All composite materials. No wood, no rot!
- T. Transom reinforced with density foam core material
- U. Glassed-in aluminum transom plate for a durable motor mount
- V. Thirty-one ounce vinyl coated with stain-resistant ProFlex®
