Merchandise36

Sea Fox Boat Company proudly announces the introduction of the Pro Series line. The Pro Series line is comprised of premium models that are set at a great price, yet loaded with exceptional standard features. The Pro Series line is made up of current and newly designed hull and deck designs; and are equipped with standard amenities that were previously offered as options. The quality options on the Pro Series are impressive and offer many new fisherman-gear choices. There are 14 models that make up the Pro Series line including center consoles, walk arounds, bay boats and a dual console. This new line takes Sea Fox to an entirely new level of boat choices, yet we stay true to the philosophy of more for less. Sea Fox continues to build hand-crafted, quality boats that are durable, dependable and affordable.

In 1957 the Renken family began building boats in Charleston, South Carolina. Today the third generation of Renkens continues that tradition with Sea Fox boats. The Renkens learned the trade of boat building through hands-on experience and the 50 years of boat-building knowledge that has been passed down to them.

Sea Fox proves that choosing a quality boat with true craftsmanship and attention to detail can still be within a family's budget. Sea Fox boats are packed full of unique features and fisherman-friendly amenities for all types of anglers. They stand behind their boats with one of the best warranties in the business – a Lifetime Hull Warranty.

Sea Fox's diverse designs and full line of choices allow you to select the boat that is just right for you, whether for fishing, cruising or enjoying your favorite water sport.

SEA FOX'S EXCLUSIVE FIBRE4SYSTEM™

The exclusive "Fibre4" all fiberglass stringer system is built into every Sea Fox boat, providing a wider, stronger stringer that will not rot! In addition to a stronger platform, decks are bonded to the broad stringer tops resulting in superior strength between hull, stringers and deck.

Sea Fox boats are constructed using all composite core material that is lighter and more durable than wood. It will not rot!

An aluminum plate is glassed into the hull providing a reinforcement for motor mounts.

Composite core materials provide strength in floors, consoles and hatch lids. No wood, no rot!

FACTS THAT KEEP SEA FOX OUT FRONT

Fibre4 Stringer System – fiberglass stringers are wider than wooden ones and will not rot when exposed to water.

A high-density, foam-cored hull will not deteriorate as wood does when exposed to water, plus the aluminum plate within the transom provides extra engine mounting strength.

Hand-rolled fiberglass means a superior laminate.

Self-bailing cockpits allow water to drain overboard.

Non-skid deck surfaces aid in safer deck surfaces.

Stainless steel hardware reduces the worry of saltwater corrosion.

Closed cell foam flotation – foam injected into key areas of the hull and deck provide superior flotation and insulation.

Family-owned with 50 years of experience – a proud heritage of experience that goes into each boat.

One of the best warranties in the business – every Sea Fox is backed by a Lifetime Hull Warranty.

SEA FOX
HULL WARRANTY
LIFETIME
DURABLE. DEPENDABLE. AFFORDABLE.

Sea Fox boats meet or exceed United States Coast Guard standards. Boat smart from the start, take a boating education course and get a vessel safety check for your boat. For information, call the United States Coast Guard Auxiliary at 800-368-5647 or at www.cgaux.org or the United States Power Squadrons at 888-FOR-USPS or www.usps.org.

THE CERTIFIED ADVANTAGE

The NMMA Certified label on a Sea Fox boat lets you know it was built to meet and often exceed strict quality and safety standards established by the United States Coast Guard and the American Boat and Yacht Council. These standards include 31 categories covering electrical systems, powering, flotation, fuel systems and navigation lights. Certified boats must also pass rigorous annual inspections from independent third-party inspectors. As a result, United States Coast Guard statistics show NMMA Certified boats are safer than non-certified boats.

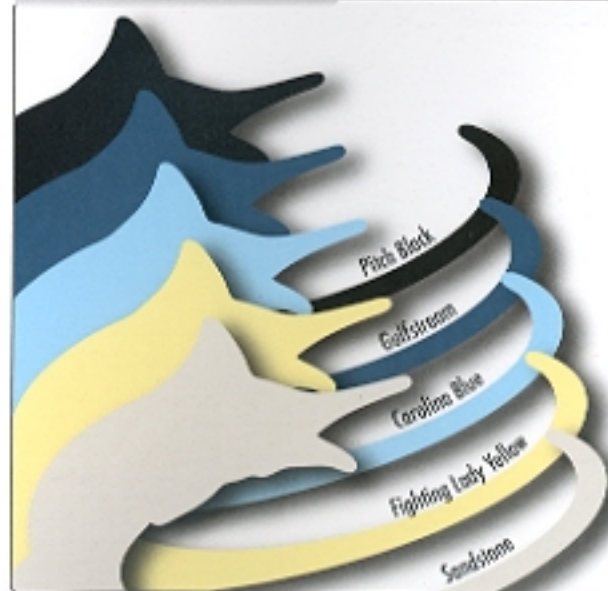

SEA FOX®

THE MAKINGS OF A SEA FOX

- A. Stainless steel hand rails and hardware help deter corrosion
- B. Rigging conduits built in below decks for clean, organized cables and wires
- C. Large insulated storage/fish locker
- D. Removable coolers on most models
- E. Flush mounted gauges on most models
- F. Ergonomically correct consoles designed by boaters for boaters
- G. Hand-rolled 3610 fiberglass knit for superior strength
- H. Hand-laid 3610 fiberglass knit in deck radius for strength and minimal flexing
- I. Premium-quality, isothalic, high-flex, Generation III gel coats
- J. Lifetime Hull Warranty
- K. Self-bailing cockpits
- L. Non-skid deck surfaces for safety
- M. Large rod boxes or racks
- N. Extra large foam-insulated bait wells/coolers
- O. Deck fiberglassed directly to broad stringer tops for superior strength
- P. Non-corroding fuel tanks
- Q. Sea Fox's Fibra4System™ foam filled fiberglass stringers
- R. Closed cell foam for added flotation
- S. Keel drainage system
- T. All composite materials. No wood, no rot!
- U. Transoms reinforced with Penske high-density, foam-core material
- V. Glassed-in aluminum transom plate for a durable motor mount
- W. 30-ounce vinyls coated with PreFixx®
- X. Double-sided finished lids on all models

AVAILABLE HULL COLORS

Due to Sea Fox's ongoing commitment to research and product development, we reserve the right to change features, specifications and/or prices without prior notification. Check with your Sea Fox dealer for complete information. Some photos shown show optional equipment. Specifications and measurements are approximate. Our Legacy and Sea Era brand boats may still have coverage under the original terms of their warranty.

CENTER CONSOLES
