Sea Fox Top Ten	64

Sea Fox Boat Company began with a clear governing philosophy at heart to develop and build quality hand-crafted saltwater boats that offer the best amenities, features, styling, performance and function. While a whole lot has changed in the materials and the methods of building boats during the past few decades, Sea Fox remains committed with a passion and a purpose to perfecting the ability to offer our customers the finest boats for the fairest price.

Today Sea Fox has grown to become one of the top tier manufacturers of saltwater boats offering you a full line of diverse boat designs including center consoles, bay boats, side consoles and dual consoles. All are paired with Yamaha outboard power, along with a multitude of leading edge technologies and innovative features that are unmatched in the industry. We share your love for moments spent on the water with friends and family, which is why every Sea Fox boat model offers a unique blend of fishing/family friendly options perfectly matched to your specific boating passion.

We stand behind our boats with one of the best warranties in the industry with our Lifetime Hull Warranty. Whether you enjoy inshore or offshore fishing, cruising or wake boarding, tubing or exploring by water, Sea Fox has the right boat model to exceed your expectations.

TWENTY THREE YEARS OF EXPERIENCE

and counting...

FACILITY

Located in Moncks Corner, South Carolina is our 140,000 square-foot manufacturing facility, which includes our own in-house metal fabrication shop, interior/upholstery shop and a three-axis router milling department.

RESEARCH & DEVELOPMENT

Sea Fox continuously strives to improve upon our existing designs, with real world testing and experimentation. All of our hulls are designed by a renowned naval architect and our plugs are then precision cut with a five-axis router. We continually make an effort to improve production while lowering costs by finding ways to implement the latest technologies and CAD design.

QUALITY CONTROL

Sea Fox has strict quality control check points through-out the build process, starting in lamination, hull and deck rigging, hull and deck capping and final inspection to ensure each boat meets both ABYC and Coast Guard requirements. Complete electrical, water and fuel pressure testing is done on every Sea Fox before leaving the factory.

STRINGERS

Each Sea Fox model has a completely sealed stringer system custom made for maximum strength and floatation. All stringers are professionally designed with CAD software and built with closed cell foam for a sealed system and added floatation.

FABRICATION

Sea Fox uses the best raw materials in the Industry today with vinylester barrier coats applied on every hull and deck to ensure gelcoat longevity for a lifetime of use. All Sea Fox models are hand laid with a 36/10 ounce fiberglass in the hull for a solid feel and ride. Stringers are custom made for each boat offering a completely sealed foam stringer system for added strength and floatation. All decks are completely cored with a high density foam composite offering stronger properties than resin based bonding agents. Once the bonding agent cures the deck and hull are chemically bonded together for superior strength.

UPHOLSTERY

We use premium marine grade 30-ounce vinyls on all of our models for strength and durability. Sea Fox beats the competition by exclusively offering Permaguard superior stain resistance on all of our vinyls. This provides unequaled resistance to scratches, scuffs, stains and abrasions for long term and trouble free performance. Our foams are some of the thickest in the industry, just take the "knee test" and simply lean your knee into the center of the cushion and then do the same to a competitor's. You will be amazed at the Sea Fox difference!

Ultima Hard Top

Our styling and smooth lines are only the beginning of what our hard tops have to offer. All Ultima hard tops come standard with an upgraded Kicker stereo system and eight Kicker premium speakers, LED spreader lights forward and aft, climate cooling misting system and not one, but two electronics boxes with acrylic doors.

WALK-THROUGH TRANSOM

To make boarding much easier and safer, Sea Fox provides the walk-through transom standard on our 226 Commander and larger models. This feature can also be helpful with all watersports and even when fishing.

GELCOAT

Each model gets sprayed with a 20 milliliters thickness of premium isothalic gelcoat for a great and long lasting finish.

MOLD MAINTENANCE

To achieve an excellent finished product Sea Fox starts at the beginning. Every Sea Fox mold is inspected by a full time mold maintenance crew after each use; and then cleaned, prepped and waxed before being used again.

CAROLINA FLARE

The pronounced Carolina Flare and downward facing outside chine on all Sea Fox models provides a dry ride in all conditions, as it was designed to roll water down and away from the boat.

NO WOOD-NO ROT

Sea Fox constructs all of our boats 100% wood free for the longest life and integrity. This is one of the many reasons Sea Fox stands behind all of our boats with an unmatched Lifetime Hull Warranty. There is no better peace of mind when you are on the water.

Performance you can count on.

COMMANDER CENTER CONSOLES

Keeping the family value in mind, Sea Fox Commander center consoles are intelligently designed by anglers for anglers. With comfortable and accommodating bow seating forward of the console we have designed this area to be ideal for family cruising and entertaining.

The smart design consoles boast automotive style ergonomics paying close attention to every detail, even our smallest models are certain to exceed every captain's expectations. Fish boxes are conveniently mounted in the floor for easy access (where they should be). The rear of each cockpit can comfortably seat adults, whether it be with flip-down jump seats or a rear folding bench seat, to maximize fishing space.

The Sea Fox Commander line offers all of the amenities you would expect from a professional fishing vessel and then we pair each model generously with family-friendly comforts. Every model has at least one conveniently located live well that will hold more than enough baitfish for a full day of fishing.

COMMANDER

328 COMMANDER

The new flagship of the Sea Fox fleet, the 328 Commander merits that title not just by virtue of her 32' length and huge 10' 8" beam, but also the all-in approach we took to her design. Unlike many boats in her class, the 328 leaves the factory fully equipped for anything from open-water island crossings to offshore fishing to sunset cruises with a dozen of your closest friends.

Among the highlights of her huge list of standard features and equipment are a pair of 16" Garmin touchscreen displays mounted in a glare-resistant dash; a twin-amp, eight-speaker JL Audio system; a side-entry door with stainless frame; offshore racing-inspired convertible three bucket/bolster helm seats with folding armrests; a huge coffin box concealed under a pair of high-back loungers; an Ultima hard top with overhead storage, full LED lighting, and a Climate Cool misting system; a spacious step-down console with electric toilet and abundant natural light; and a bait prep station featuring dry storage, fresh and raw water, a double sink, and a 65-quart premium cooler on an electric slide-out system. And that's just for starters.

Smart features and luxurious finishes aren't everything though, and the 328 Commander delivers the performance goods as well. A 57 mph beast when rigged with twin V8 Yamaha F350s, she's also remarkably agile thanks in part to standard SeaStar Optimus electronic power steering. For effortless close-quarter maneuvering, intuitive joystick controls are available. An aggressive 22.5-degree deadrise delivers soft landings and predictable performance in rough seas, while her big 10' 8" beam makes for exceptional trolling and drifting stability that narrower, deeper-V hulls can't match. A gracefully flared bow pushes spray down and out, and a carefully engineered Euro-transom design with plenty of freeboard aft keeps slop out and anglers in.

center console

328 COMMANDER

328 COMMANDER

Although she's designed with an eye for style and an emphasis on luxury — highlighted by bow seating with individual curved backrests, cozy sleeping quarters below deck, extensive LED accent lighting, a gracefully curved glass windshield, and top-shelf upholstery — the 328 Commander is a fishing machine at her core. In addition to her full-featured tackle and bait station, she boasts a 55-gallon pressurized, lighted transom live well with a clear lid; another 35-gallon lighted well with an aquarium wall in her port corner; four massive, overboard-draining fishboxes; 36 total rod holders plus extensive rod storage; smart touches like storage compartments forward and aft for five-gallon buckets; available Taco Grand Slam outriggers; and a standard anchor windlass with helm controls for effortlessly setting up on that grouper spot.

The ultimate combination of performance, luxury, and fishability, the 328 Commander isn't just the biggest boat Sea Fox has ever built; she also represents the culmination of everything we've learned over nearly 20 years of constantly refining our designs, construction, and rigging.

- TRANSOM 35" / .88 m

center console

288 COMMANDER

A pedigreed fishing machine, the 288 Commander combines popular features found on our flagship 328 Commander with a carefully redesigned layout and console. Adding in popular features like the aquarium view livewell, new bow table design with integrated casting platform and filler cushion and a new curved lounge design. The result is a refined, capable offshore platform with more than a touch of style.

Forward of the console, the 288 is all diamond-stitched luxury. Twin high-back loungers with ergonomically curved seating in front of the console that conceal a 75-gallon dry storage box, while a pair of aft-facing, curved-back loungers are built into the bow. Adding our new bow table design with integrated casting platform and a filler cushion, the bow area can be converted into either a full-width lounge, dining area or casting platform.

For long days on the water — or at the sandbar — the step-down console hides a comfort station with head, sink, and portlight, while a 26-gallon freshwater tank makes for refreshing on-deck showers and easy tackle cleanup at the end of the day.

TRANSOM 30" / .76 m

center console

266 COMMANDER

The 266 Commander is right in the sweet spot between smaller, single-engine boats and larger, less easily trailered rigs. She's big enough to fish the blue water even in less-than-perfect conditions, but small enough to tow easily — even for long distances.

Similarly, she's small enough to deliver exciting performance with a single outboard, yet big enough to comfortably accommodate twins. Twin Yamaha F150s or F200s offer power and redundancy, while a single F300 or F350 means lower initial cost and maintenance savings.

Like all Commanders, the 266 is a full-featured fishing platform that also offers comfortable and stylish seating and amenities forward of the console. In the cockpit, she features a massive 55-gallon baitwell, two overboard-draining fish boxes, and ample rod holders. A large console tackle center accommodates a half-dozen tackle trays as well as rigging tools. Forward, another huge in-floor locker holds more ice and fish. With an aggressive entry, flared bow, and 20-degree deadrise, the 266 can get you to the fishing grounds fast and dry. And with 143 gallons of fuel — translating to a cruising range in excess of 300 miles — she'll get you home safely too.

266 COMMANDER

206 COMMANDER

Introducing the Sea Fox 206 Commander, a 20-footer that's built with the same characteristics and comforts that you would find in the rest of the Commander line as well as a few features usually only seen on the bigger boats.

This 20-footer provides the ultimate on water performance, designed for anglers of any skill level or age. The 206 comes packed with family friendly amenities like the Sea Fox signature scalloped curved bow seating, cushioned seat with backrest forward of the console, SeaStar hydraulic & tilt steering and the standard 20-gallon livewell and flip-up rear seating.

– The 206 Commander will make any day on the water a day to remember.

VIPER BAY BOATS

With wide and shallow hulls presenting the prominent Carolina Flare that Sea Fox is known for, all of our Viper bay boats are designed with the professional angler in mind. Large casting platforms, oversized storage compartments, generous live wells and thoughtfully placed fish boxes are some of the standard ammenities found on all of our models.

Following our philosophy of family friendly in the bow and fisherman friendly in the cockpit, these highly capable vessels are the ultimate mixture of fishability, functionality, and comfort.

The perfect conveyance of versatility, the Sea Fox Viper series has a model ready to meet any captain's expectations inshore, offshore and near shore.

bay boat

240 VIPER

Low, sleek and agile with a forward-raked transom, a gently broken shearline, and a flared bow evoking classic Carolina design, the 240 Viper is the cover girl of the Sea Fox fleet. Add the optional Ultima hard top with its gracefully swept, powder-coated pipework, and you'll turn every head you pass.

Just because she's easy on the eyes, though, doesn't mean she can't fish. In fact, she comes standard with three livewells — 26 gallons aft, 20 gallons in the leaning post, and 10 gallons forward, plus convenient cast-net storage, plenty of dash space for today's large electronics displays, a 50-inch insulated fish box, a built in trolling motor mounting pad, and casting decks big enough for square dancing.

Her light weight also translates to a shallow 13" hull draft, affording access to all but the skinniest water. Meanwhile, a moderate 15-degree deadrise makes for a surprisingly comfortable ride outside the jetties when kings, cobia, or grouper are the order of the day.

With their ability to do everything from stalking knee-deep flats to trolling the Gulf Stream to towing tubes at the lake, there are few boat styles as versatile as a large bay boat. And there are few large bay boats as intelligently designed, capable, and head-turning as the 240 Viper.

side console

249 AVENGER

Combining the offshore capabilities of our Commander center consoles with the refined comfort of a day cruiser, our innovative 249 Avenger side console transitions seamlessly between hardcore fishing and hardcore leisure.

For offshore duty, the Avenger’s aggressive, flared bow and 19 degree deadrise aft mean a dry, soft ride, while her 115-gallon fuel tank and exceptional economy yield an approximately 400-mile range — enough for even the longest runs to the ledge. Anglers will also appreciate the 40-gallon transom baitwell, available 20-gallon leaning post baitwell, ample rod holders, built-in tackle storage, insulated fish boxes, and wide-open cockpit.

When the fishing rods are stowed, it’s the Avenger’s unique side-console layout that sets her apart from the crowd, accommodating a huge, wraparound bow seating area with a full lounge and removable center table for comfortable dining. Inside the console, steps lead to a roomy, upholstered head compartment with fresh water sink, Corian countertop, and portlight. On deck, a standard fresh water shower is perfect for rinsing off after a salty swim.

LIFETIME HULL WARRANTY

LIMITED LIFETIME STRUCTURAL HULL WARRANTY:

Sea Fox Boat Company, Inc. warrants to the original retail purchaser of this boat if purchased from an authorized Sea Fox dealer that the selling dealer or Sea Fox Boat Company, Inc. will repair or replace the fiberglass hull if it is found to be structurally defective in material or workmanship for as long as the original retail purchaser owns the boat. For purposes of this warranty, the hull is defined as the single fiberglass casting which rest on the water. This limited warranty is subject to all limitations and conditions explained below.

TEN-YEAR TRANSFERABLE LIMITED LIFETIME STRUCTURAL HULL WARRANTY:

In addition to the lifetime limited structural hull warranty, Sea Fox Boat Company, Inc. offers a one-time transferable ten-year structural hull warranty to a second owner only. The selling dealer or Sea Fox Boat Company, Inc. will repair or replace the fiberglass hull if it is found to be structurally defective in material or workmanship within the first ten years after date of delivery to the original retail purchaser. The remaining term of this one-time ten-year limited structural hull warranty may be transferred to a second owner if, within 60 days of purchase, the new owner registers the transfer with Sea Fox Boat Company, Inc. and pays the established warranty transfer fee. For more details regarding warranty transfer, contact Sea Fox Boat Company, Inc.'s customer service department.

FIVE-YEAR LIMITED HULL BLISTER WARRANTY:

Sea Fox Boat Company, Inc. warrants that the selling dealer or Sea Fox Boat Company, Inc. will repair any underwater gel coated surfaces of the hull against laminate blisters, which occur as a result of defects in material or workmanship within five years of the date of delivery, provided that the original factory gel coated surface has not been altered. Alteration would include, but is not limited to damage repair; excessive sanding, scraping, sandblasting; or from improper surface preparation for application of a marine barrier coating or bottom paint, any of which shall void this warranty.

A marine barrier coat must be properly applied to the hull bottom if boat is to be moored in water for periods in excess of 30 days or saltwater for periods in excess of seven days. Marine barrier coating is required if boat is to be bottom painted. Sea Fox Boat Company, Inc. shall repair or cause to be repaired any covered laminate blisters based on the following prorated schedule:

Less than two (2) years from original retail purchase date – 100%
Two (2) to three (3) years from original retail purchase date – 75%
Three (3) to four (4) years from original retail purchase date – 50%
Four (4) to five (5) years from original retail purchase date – 25%

Reimbursement shall be limited to one repair, not to exceed \$80 per foot of boat length prior to prorating. Sea Fox Boat Company Inc.'s prior authorization for the method and costs of repair must be obtained before repairs are commenced.

LIMITED GENERAL WARRANTY:

In addition to the above hull warranties, Sea Fox Boat Company, Inc. warrants to the original purchaser of this boat, if purchased from an authorized Sea Fox dealer, that Sea Fox Boat Company, Inc. will repair or replace any parts found to be defective in materials or workmanship for a period of one (1) year from the date of delivery, subject to all limitations and conditions contained herein.

LIMITED EXTERIOR FINISH WARRANTY:

Sea Fox Boat Company, Inc. warrants that the selling dealer or Sea Fox Boat Company, Inc. will repair cosmetic defects in the exterior gel coat finish including cracks or crazing reported to Sea Fox Boat Company, Inc. within 90 days from the date of delivery to the original retail purchaser, subject to all limitations and conditions contained herein. All warranty work is to be performed at a Sea Fox dealership or other location authorized by Sea Fox Boat Company, Inc. after it is established to Sea Fox Boat Company Inc.'s satisfaction that there is a defect in material or workmanship.

Dry weight is approximate and includes: boat plus factory options, two batteries, but NO motor(s), water, fuel or owner's gear.

Maximum weight is approximate and includes: boat plus factory options, full fresh water, holding and fuel tanks, two batteries, but NO motor(s) or owner's gear.

Bridge clearance: based on factory installed Ultima hard top or T-top. Doesn't factor in optional outriggers.

Fuel capacity can vary due to US EPA Evaporative Standard requirements.

Sea Fox Boat Company, Inc. meets US EPA Evaporative Standards using Certified Components.

Note: Due to Sea Fox's continuous innovation and improvements specifications can change without notice. Please visit our website for the most current list of available standards and options.

All Sea Fox models are exclusively Yamaha power matched.

Get Hooked.

TEN REASONS TO

- 1.** All of our boat's are designed with the Sea Fox signature philosophy of family friendly in the bow and fisherman friendly in the cockpit.
- 2.** All-composite construction for lifetime structural hull warranty – best in the Industry.
- 3.** All of our boats are outfitted with 316 stainless steel thru-hulls and hardware including standard pull-up cleats with backing plates on all models.
- 4.** Sea Fox controls cost with in-house aluminum, upholstery and milling shops. This allows for competitive pricing and use of the best raw materials in our class.
- 5.** Sea Fox only uses upgraded raw materials like 36/10 hand laid fiberglass. This is a 36-ounce stiched glass with a one-ounce matt backing to add strength. All of our hulls and decks are sprayed with a vinylester barrier coat to prevent crazing and cracking.

CHOOSE A SEA FOX

- 6.** All Sea Fox boats are designed by a world-renowned naval architect using the latest computer technology for impeccable performance and hydrostatics.
- 7.** Dry, smooth ride with a large Carolina flair designed into all Sea Fox hulls.
- 8.** Safety first on all Sea Fox boats with foam-filled stringers and dual 1100 GPH bilge pumps. Complete waterproof sealed Deutsch electrical system throughout each of our boats – best in the Industry.
- 9.** Sea Fox exclusively packages and is power matched with Yamaha outboard motors (three-year warranty on all Yamaha components).
- 10.** Sea Fox is privately owned by fisherman with families for more than 23 years.
